About Fletco Carpets

Fletco Carpets is one of Europe's leading manufacturers of commercial carpets to the contract market. Our story goes back more than 70 years and today, we are a modern company focusing on product development, technological innovation and efficient, eco-friendly production. All our carpets including backings, are manufactured and quality controlled at our state-of-the-art production facility located in the heart of Denmark. High quality and longevity are key words to our carpets, and behind each product lies the ambition to produce the best product that exceeds the industry quality standards.

We care about the environment and people

Our carpets are manufactured using 100% renewable wind energy and our felt backings are made of recycled bottles (rPet). Fletco carpets are 100% free of bitumen, PVC and Latex. Your guarantee for low VOC's and improved indoor air comfort.

Højer Kontrakt® Original

Manufactured of high quality New Zealand wool since 1899. The mélangé effect in hang-dyed yarn enhances the natural look of the wool, particularly in the beige and grey tones. The remaining colours are slightly more saturated in their expression. Available in 12 standard classic colours. Custom colour from +200 m².

COM 1000

An extremely strong flat woven carpet in a strict and simple design. The low pile height in combination with an outstanding dimensional stability enable us to offer this particular design in our patented LockTiles® cut.

COM 1000 is made of solution dyed yarn and can therefore withstand extraordinary cleaning requirements.

With LockTiles® you can obtain nearly invisible joints and get the advantages of carpet tiles but the calm look of a broadloom. Available from stock in a range of 10 different colours. Custom colours upon inquiry.

For more information on LockTiles® and ZigZag® - see pages 42-45.

Penta & Penta Stripe

A classic loop pile in a sustainable version available as broadloom and carpet tiles. It may look like any other classic loop pile, but the carpet is in fact composed of four layers, each individual layer carefully selected with focus on sustainability, product weight and indoor air comfort. With felt backing made of recycled bottles (rPET), Penta is available in six colours and Penta Stripe in five colours. Custom colours upon inquiry.

Art Weave by Fletco®

Art Weave by Fletco® is created from a vision of bringing art literally down at floor level. A desire to create a different life on the floor. The design of Art Weave is inspired by the unique structures in different materials, which are interwoven into a living, organic, and graphic direction. Each expression comes in different colours – in four different shapes.

LockTiles®

Carpet tiles with a seamless look

LockTiles® is a patented laser cutting method. With carpet tiles cut in the LockTiles® shape, you can obtain a flooring surface with nearly invisible joints and with an exceptionally good dimensional stability. The laser cut edges interlock around each other and fit together in all directions. The tiles are easy to replace, should a small area be soiled beyond cleaning.

Available in COM 1000 and Nordic

To obtain the broadloom look with carpet tiles, this sets great demands to the density and pile height of the carpet. The LockTiles® cut is currently available upon demand and in COM 1000 and Nordic. Surcharge apply.

The advantages of LockTiles®

- Installed in same direction, obtaining a broadloom effect with nearly invisible joints.
- Laser cut edges ensure a perfect fit and helps prevent fraying.
- Single tiles can easily be replaced.

Free demo box

Order a free demo box of our LockTiles® from our website.

ZigZag-Tiles®

Carpet tiles laser cut in the shape of ZigZag-Tiles®. The tiles can be installed ashlar obtaining the look of a broadloom with less visible joints.

Available in COM 1000 and Nordic

We recommend installing ZigZag-Tiles® ashlar for the best result.

The advantages of ZigZag-Tiles®

- Installed in same direction, obtaining a broadloom look with less visible joints.
- Laser cut edges ensure a perfect fit and helps prevent fraying.
- Single tiles can easily be replaced.
