

Certificate  

Wind Turbine Power

It is hereby certified that

Fletco Carpets A/S

for the period 01.01.2024 - 31.12.2024 has purchased wind turbine power from production facilities at Nejst equivalent to 1.065.000 kWh for the period.

Electricity produced from wind turbines does not entail the emission of any greenhouse gases such as CO₂ and does not release any particulate pollution into the atmosphere.

The purchase of electricity from Danish wind turbines is documented via guarantees of origin which are issued in accordance with the Executive Order on Guarantees of Origin for RES Electricity and the Executive Order on the Declaration of Electricity for Consumers as per Directive 2009/28/EC of the European Parliament and of the Council of 23 April 2009 on the Promotion of the Use of Energy from Renewable Sources.

Energi Fyn keeps records of the procured guarantees of origin and submits reports to energinet.dk.
