# PENTA STRIPE EcoTiles

– the budding green revolution

At first glance, with their small, dense loops, Penta and Penta Stripe may look like a traditional bouclé carpet. However, an in-depth look at the design reveals a different story, like the first sprouts in a field, pushing up with exuberant vitality.

Penta Stripe is a revolutionizing yarn-dyed tufted carpet in four layers. All materials and every single layer are carefully selected with an emphasis on sustainability, total product weight and indoor climate comfort – key elements that help bring this classic design into the future. The dyed-in-the-wool yarn is a top choice when special cleaning criteria apply, as it ensures that the carpet maintains its beautiful appearance over time.

Penta Stripe, whose simple and elegant stripes add a little more character without dominating the interior.

Available as square carpet tiles in a muted, universally applicable colour scale.
